We are proud to represent:

Concast – Fibercrete trenching for substations and industry.

G&W Electric Co - Transmission & Distribution products including: Reclosers; Padmount, Overhead, and Vault Switchgear; Automation products; Cable Joints, Cable Terminations, High Current Limiting System Protection Devices; Junction Bars; & Cable Accessories.

Hico America - Large Power Transformers & Shunt Reactors up to 765KV; 69kv-800kv SF6 Dead-Tank Circuit Breakers; HV & Compact Gas Insulated Switchgear, Statcom Systems & Energy Storage Solutions

Klute Steel - Provider of substation structures(including tapered tubular structures), towers, steel & fiberglass grating for transformer pits, engineering services, and custom fabrications.

Niagara Power Transformer – Class I and Class II Substation Power Transformers, Grounding Transformers, and Three-Phase Voltage Regulators Transformers

Ritz Instrument Transformers – Instrument Transformers - low voltage 600V and BCT's, medium voltage 5kV thru 72kV dry-type, high voltage 72kV thru 500kV oil filled and line traps. Insulated Bus Bar Systems (SIS) and Cast Coil Power Transformers (CCTX)

Taihan Fiberoptics – Is a leader of digital innovation with its optical technologies and expertise. Taihan helps all customers create new possibilities in the digital world through a differentiated network connection. Specializes in OPGW and ADSS Fiber.

VFP - Provider of metal & concrete drop in control building solutions designed to protect critical equipment from extreme environmental conditions.

Vanquish Fence -Leader in non-conductive, animal deterrent and CIP security solutions.
